Service Engine Soon Light Reset

If it's the indicator that literally says "service engine soon", and not the check-engine light, then you have no worries. That's programmed to come on at set intervals to remind you that routine service may be due soon (oil change, inspection, tire rotation, etc).

### Service Engine Soon Light Reset

2001 Nissan Xterra - the service engine soon light is on. Codes read at AutoZone said knock sensor. Took to our mechanic and he said it wasn't the knock sensor. He replaced the electronic cellinoid sensor (for cooling). He could not find an O2 sensor code for a 2001 Xterra. After driving 15 miles or so, the light is back on.

Nissan actually has a procedure to access the fault codes and to erase them and reset the computer. The majority of late model cars have a check engine light for the computer and a service engine soon light for required maintenance like oil changes. Nissan only uses one light --- the service engine soon light --- to take care of these functions.
