Bendix King Kn 53 Tsomanual

The KN 53 is a TSO'd panel mounted 200 channel VHF VOR/LOC receiver with a 40 channel Glideslope Receiver/Converter. The NAV receiver supplies VOR/LOC information to navigation converters and provides two out of five frequency selection for remote mounted Distance Measuring Equipment.

KN 53 - BendixKing

During the Bendix and King merger (i.e. Bendix/King), a new part numbering system was created that converted these 9 digit part numbers to 12 digits. Therefore, 066-3056-01 became 066-03056-0001. Despite this numbering change, units that were originally from the King Radio design still have the 9 digit part number format on the unit dataplate.

Reflecting the importance of precise control, the KN 53 offers innovative frequency storage capability. For example, the "flip-flop" NAV pre-select feature allows you to store one frequency in the standby display while operating on another, and then switch between the two instantly with the touch of a button.
