Chapter 14: Absolute  
Risk Estimates I.

Introduction As noted  
in Chapter 1, risks can  
be expressed in  
absolute terms, for  
example, number of  
fatalities per mile year  
for permanent  
residents within one-  
half mile of pipeline  
Also common is the  
use of relative risk  
measures, whereby  
hazards are prioritized  
such that the examiner
