ShadowTrader Review 2020: Is It a Good Investment?

Observe also that the swing to generate the Buy signal is 80 pips large and very often, if not all the time, top and bottoms are tested as it was in this case and that means that in the case we had entered a trade here, we would have been in 80 pip loss and in this case we went even lower than that so it's important to be aware of that.

Swing trading is about taking out the day to day stress of day trading, and simply focusing on the longer-term movement. By sticking with two these types of strategies, it allows you to build up your portfolio and walk away from the computer. Far too many traders are stuck to their computer screens trying to make a living every day.
