### Testing Business Continuity Plans Factsheet

A Business Continuity Plan (BCP) is a documented set of procedures and information that is developed, compiled and maintained in readiness for use in the event of a disruption. A BCP will not only make coping with a disruption or incident easier, it makes it possible for you to minimise the impact on your business, staff and customers.

### FACT SHEET Business Continuity

The purpose of DR/BC testing is to achieve organizational acceptance that the business continuity solution satisfies the organization's recovery requirements. Plans may fail to meet expectations due to insufficient or inaccurate recovery requirements, solution design flaws, or solution implementation errors.

### Overview of how to test a Business Continuity Plan

Testing your Business Continuity Plan (BCP) helps to continuously improve your ability to successfully recover from various scenarios, whether it be a natural disaster or a communications failure. The good news is that there's not just one way to test your BCP. Here are four steps to help you build a better Business Continuity Plan testing program and ensure you are prepared for any situation that may come your way.

### Four Steps to Better Business Continuity Plan Testing ...

Testing helps business continuity plans stay up to date and provides for more continual adaptation and updating, but your company's key strategic leadership should periodically evaluate the current state of the company in light of new strategies, technologies, or capabilities and determine whether the existing Business Continuity Plan still covers all of the current needs, strategy and direction.

### Business Continuity Plan Testing and Checklist| BCP Test ...

Three fundamental test types are used in business continuity testing: a plan review, a tabletop test and a simulation test. Let's examine each one briefly. In a plan review, the BC/DR plan owner and team discuss the plan. They examine the plan document in detail, looking for missing plan elements and inconsistencies.
