The Black Death is the name used to describe the plague epidemic that swept through Europe from 1348 to 1351. One of the most frightening Black Death facts is that it was extremely fatal and spread very quickly. Although the exact death toll can only be estimated based on what we know now, it is thought between 75 and 200 million people died.

The brutality of the Black Death was matched only by the speed of its rampage across medieval Europe. One third of the English population was wiped out. The feudal system – brought into existence nearly 300 years earlier under William I – was damaged, and the unquestioned belief in the supremacy of the Catholic Church was destroyed.
